Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	82.35% (14 of 17)
1	best lab instructor i have ever had. cares about more than just your performance in this class, he supports us in everything we do. always there for any questions we may have no matter the time of day, has gone above and beyond for all of us.
2	The best TA I've had so far. Anant really cares about his students and wants them to succeed in every way possible. He explained the labs and content well and would always tell us really cool stories about his life. Loved having him and I wish him the very best on his journey .
3	So good at explaining concepts or anything you may not know well. Very helpful and encouraging!!!
4	My instructor made this class very enjoyable. He filled it with jokes, easier ways to remember and learn the material, and encouragement. He genuinely wanted to see us succeed as individuals and supports us in our academic and personal careers and aspirations. I would highly recommend this instructor to anyone taking the lab for Microbiology.
5	Incredible TA, made the class fun and easy to succeed in. He gave us all the tools to do well and made sure we all understood the material. Easy to get in touch with and work with. Made lab an enjoyable experience.
6	I have had Anant as a lab TA twice now and he is so amazing! He truly cares about his students' success and also about their life in general. He is always there to help us no matter the time of the day or night and he makes sure to explain things in lab thoroughly and never moves on until every student has grasped understanding of the material. If he were a professor I would take his class no matter if it was required for me or not. He is truly passionate about science and it shows when he teaches! I hope I have him again before I graduate!
7	Anant Deshwal is the best lab instructor I have ever had.
8	Anant you are by far the best TA I have had!! Your passion for teaching and the success of your students is amazing!! I learned so much from you and wish I had a chance to take more classes with you! I hope you find your dream job soon you absolutely deserve it!!
9	Anant made a lab course enjoyable and I felt as the work done was necessary. He made sure the course was only about learning and not about a grade you received. He was also very encouraging to us all in and out of the lab and was available at any time of day for help. Overall, Anant was one of my favorite faculty members I have been honored to be around at the University!
10	Anant is truly the best! He is a great instructor, but an even better person. He cares about his students in a way that makes them want to learn, and he makes it easy to learn. Anant is available at any time of day, and he makes it known that he is there for his students. Going to his lab was one of my favorite parts of the week, and it will be missed greatly. Anant focused on making sure the students understood the material, and was willing to explain it in different ways if it wasn't clear at first.
11	Anant is one of the most passionate teachers I have had in all of my schooling and as a junior in college, that speaks volume. He made every student feel welcomed, intelligent, and encouraged. Anant was readily available, day or night, for whatever the education concern was and students knew with confidence that when asking Anant for assistance, he would pursue the issue with the upmost kindness and helpfulness. He had a way of making the lab as a whole feel like a small little family. He had an amazing ability in explaining tricky topics and efficiently explaining each lab. His small side tangents of encouragement and motivation to be our best person and work very hard were astonishing. I was able to feel like this was not just a lab or learning, it was enjoyable and I looked forward to coming to lab every week. People need to take notes from Anant and we would have a much more positive and encouraging environment for students to learn and succeed in.
12	Anant is hands down the best laboratory TA I have ever had in my three years attending this university. He not only went above and beyond to help us be extremely successful in the lab, but he genuinely cared about his students' lives outside of lab as well, and always made it a point to sit down as much as he could and have encouraging discussions with the lab. He always made each student feel important and intelligent, and constantly reminded us that we are capable of anything we put our minds to. He was always readily available when contacted with questions, and made me feel comfortable asking as many questions as I felt necessary. He truly cares about every aspect of his students, inside and outside of lab. He is an incredible leader and deserves to be recognized for the amazing job he did.
13	Absolutely an Amazing TA. Always ready to help us whenever needed. Always makes himself available for us. The best TA I have had at the U of A so far. Somebody, please give this man a promotion. He tells us amazing stories to keep us focused. Brave and awesome man.
14	ANANT IS AMAZING!!! he truly cares about his students and how they do, not only in his class but in life as well!!!! we will make an amazing professor

Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	66.67% (12 of 18)
1	favorite TA ever, passionate about micro
2	Very nice teacher really cares for his students and willing to be there wherever and whenever for his students.
3	This is one of the first general ed labs that I have actually enjoyed. Anant, you rock.
4	The best TA I have ever and probably will ever had! Made me excited about learning and had the best personality. He taught things so well and really made me understand everything about the lab.
5	One of my favorite instructors ever, and that's coming from someone who has been to 3+ colleges!
6	Hands down the best lab TA I have ever had. I will remember what he taught me for a very long time.
7	Best lab I have had in my college career. Anant was able to explain concepts easily for all the understand. Always available if anyone ever has question. Anant has an uplifting spirit that motivates us all in the classroom. He shows a great amount of passion for his field of work and the want for his students to succeed.
8	Best TA I've ever had!
9	Anant was amazing. He helped us understand each topic, and he would break the information down if he could see we weren't getting it. He made lab fun and he showed his passion for biology and for teaching. I am not a science person whatsoever, and have not done well in (therefore never liked) any of my science classes before. But I learned so much with Anant, and it was so much fun, so I'm very sad that lab is over now.
10	Anant is one of the best TAs that I have had so far. He truly cares about each student and their understanding of the material.
11	Anant is an ANGEL! I am a second semester junior, and I can confidently say that he has been the best TA I have had to this day. He is great at explaining the material in a way that I can understand, and he always responds to my emails or questions in a timely manner. It is prevalent that he knows quite a bit about the subject, and he is a phenomenal TA!
12	AMAZING TA! Appreciate all that you did for us and your funny stories/singing! I enjoyed lab very much. Thank you!

1	You made me enjoy microbiology very much. I am inspired to follow Food safety as my career.
2	You did a wonderful job teaching this course! You explained every single experiment/tests and took time to help every single student. I also admire your excitement for this course! Thank you for a great semester, enjoy Tennessee.
3	The best lab TA! I really enjoyed the way he taught our class and wrote notes on the board to help us understand stuff better in lab.
4	Really good at teaching. I learned a lot and the course was really enjoyable. You can tell he has passion for what he teaches.
5	I appreciated your enthusiasm so much. You really set a strong first impression when you started the semester off with your ukulele. You provided great overviews of what we were going to do in lab and made sure we understood the concepts behind it. Thank you for telling us your monkey, elephant, and snake stories while we waited for our samples to dry. You are my favorite lab instructor I've ever had. Thank you for a great semester and I wish you all the best in your endeavors.
6	Great work! Keep telling stories to the class!
7	Anant was an excellent lab instructor. He was always very engaging and cared to assist the students in growing their understanding in learning about microbiology. He always answered my questions or explained material respectfully. He created a fun learning environment which allowed all students to participate and grow in. He did an excellent job as an instructor.
8	Anant is probably one of the best lab instructors I've had. He's hilarious and has some great anecdotes from his travels around the world, and he is very knowledgeable about the subject and its uses. I would 100% take another class if it were taught by him!
9	Anant is an outstanding professor and explains the lab very clearly before we begin. Anant doesn't waste time and he makes sure that everybody understands the material before he moves on which is very helpful. He is very friendly and easily approachable for questions or feedback. Overall, a great instructor!
10	Anant is an amazing instructor and helped out so much! He really cares about the course and us as individuals. Best lab instructor I've ever had!

1	truly the best TA I have ever had
2	Very kind and cares about students success.
3	Thank you for an amazing semester! And good luck on your future endeavors.
4	He is such a great professor! Loved going to class he made it such a fun time!
5	Best TA I've had. Loved your stories when we were sitting around waiting on experiments.
6	BEST LAB TA EVER!!!! So nice, so excited to teach, loves his job, amazing at explaining lab and so much more. Never had such a fun, kind TA that actually enjoyed their job!!
7	Anant was super nice, and very helpful. He made the lab instructions easy to follow and also explained the concepts of microbiology which connected to the labs. His tests were very fair, he would always tell us what to study in order to be prepared for the quizzes and practicals. I feel like Anant was very knowledgeable about microbiology and could answer any question I had, wherever he goes after the University of Arkansas I'm sure he would do a wonderful job!
8	Anant was always a good part of my week. I enjoyed his class and he made it very enjoyable. Very funny and kind-easy to understand and truly wanted his students to succeed.

Question:	Comments:
Response Rate:	45.45% (10 of 22)
1	You are an excellent instructor. I love your teaching style and personality. Overall, taking this course was an enjoyable experience for me!
2	The instructor makes class interesting because he is passionate about what he does and focuses on if we are learning and understanding the material. Overall, a well put together class and I would recommend.
3	One of my favorite professors yet. He is very passionate about biology and keep the class very interesting. He is there to help or answer questions at any time of the day and does every thing in his power to help his students.
4	More bonus points assignments would be helpful
5	I took Principles of Biology in the fall of 2018 with professor Shadwick. This time around was much better. I was concentrated more and was able to learn more from instructor Deshwal.
6	Grrreat professor , responds to emails, gave his extra time to explain a concept I wasnt understanding
7	Great Teacher
8	Anant, was an excellent instructor I enjoyed having him as my professor. Every time I went to talk to him he made me understand the concepts better than what I did in lecture and he was always readily available when I needed him or any student. Also he made me realize that wanting to learn just for the sake of learning is better and to not worry about my grade because it will follow. He is very passionate about his job and it made me become more interested in the subject. As an incoming freshmen, having him as my first professor was amazing, because he made me feel welcomed and made me feel like I could succeed in this new path of my life, he was also friendly and interactive in class and he made the subject more easy to understand and fun. I would definitely recommend having him as an instructor because he makes long lectures go by fast yet he still manages to teach all the course information while letting his students know that the will succeed. Just as long as we don't panic! And for that I will always Thank him!
9	Anant was very personable and a good professed. It's clear how passionate he is and it makes me excited to learn.
10	Anant is amazing! Something that I think that he does that really sets him apart from other instructors is that after every concept he explains, he stops and literally asks the class if what he just talked about made sense or not. Generally professors will have a set list of topics they plan to discuss and as long as they check the boxes on their own agendas, that's all that matters to them. But Mr. Deshwal legitimately wants his students to understand the concepts of his lecture and engages us students to be interested as well. His class is more than the typical 'lecture', it is an actual learning experience that all his students are able to enjoy. He has been one of my favorites professors thus far for sure!

Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	71.43% (10 of 14)
1	<p>the quizzes are worth a lot of points compared to completing the actual lab</p> <p>This was one of the most chaotic labs I have ever taken. Although Anant was a nice guy and was VERY interested in us knowing and understanding the material, he lacked in pretty much all other areas of teaching. I have never waited so long to see participation & quiz grades. He also made the quizzes a little tough in my opinion. And although I don't mind studying for a quiz and earning my grade, he sometimes would wait until an hour before lab to post his powerpoint we would be quizzed over, one time he didn't even post it at all.</p>
2	<p>Even though I was unimpressed with his teaching capabilities, Anant made it clear to us constantly that we could always come to him with any questions at any time. He presented material in an interesting way each lab & made it fun. He truly is one of the kindest, most caring men I have ever met, just maybe needs a little more guidance when it comes to teaching.</p>
3	<p>This was my favorite class I have taken at the University and it was because this instructor was amazing! He made class so interactive and interesting and I learned so much from him! I loved coming to class because he made it so fun! He helped me to understand things that I did not understand well when first learning them and he was always available to answer any questions that I had! I am so glad that I got to be in his class!</p>
4	<p>The lab quizzes were unnecessarily hard. The material covered made since and people could have had an A in that class, but due to the quizzes being so hard most people are ending up with a C in the lab.</p>
5	<p>I appreciate how passionate Anant was about this course.</p>
6	<p>Anant was one of the most helpful TA's I have ever had. He really showed he cared about us, and made fun ways for us to learn difficult material. The only reason I did not care for the course was because the quizzes were worth too many points, and brought everyone's grades down tremendously.</p>
7	<p>Anant made the lab very fun to come to and learn. He had creative ways of making the material in the lab make more sense and were just very enjoyable. His teaching methods were effective and I believe he taught me everything I needed to know in order to succeed in this course. He's also so lively and enthusiastic which is great to come to at a night lab.</p>
8	<p>Anant is very passionate about teaching and loves teaching us new things! I have never met a before that has cared so much about their students as much as Anant does. Best TA at the University of Arkansas no doubt.</p>
9	<p>Anant has truly been my favorite lab TA. He always makes what is expected of us very clear and he helps us every step of the way during the more difficult projects. He incorporates a tasteful amount of humor into his presentations to help keep a light atmosphere, which can be difficult to maintain in a setting that can so easily turn stressful. Anant always ensures that we understand he is always there for us, even five years down the road when we're graduated and haven't seen each other in years - he is willing to write recommendation letters, give us personal advice, anything we could possibly need. He is a great person and lab TA!</p>
10	<p>Anant has by far been my favorite lab TA, I have never had a TA so excited and knowledgable about the subject like Anant. He really cared for his students and his main focus was for us to learn and broaden our knowledge. Anant is going to make such a great professor and I already feel so envious for his students in the future because they will be gaining a great teacher.</p>

Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	83.33% (10 of 12)
1	When I registered for a 7:30AM lab I was sure I would hate the lab. However, Anant is by far the best TA I have had since my time at Arkansas. He presents difficult material clearly and simplifies it to the point where anyone could understand it. He is positive and so encouraging to everyone. Becoming a professor is definitely his calling and he will by far be the best Physiology professor. Anant is also very receptive to feedback, he films his lectures so he can find ways to improve his teaching style. I don't know any other TA/professor who does that, but he does it because he cares so much about his students. In return, it's almost like you want to exceed in the course for him, and for the first time I actually feel like lab wasn't pointless. I learned a lot and I'm so grateful every other lab closed before I could register. It worked out great!
2	This lab was one of my favorite labs ive taken because of Anant. He made learning about physiology interesting and easy to understand. The way he presents information is interactive and enjoyable and tells great stories to help us better understand certain concepts. He truly cares about his students and made sure we always knew that. He is passionate about what he does and always told us to be passionate too.
3	One of the best TAs I have ever had! You can tell he really cares about his students and their success in both class and life in general. He cares about us being comfortable, learning, and being curious without any pressure on us. He also allows us to make mistakes or alterations in experiments so we can learn. I wouldn't change the way he teaches the class at all. The other TAs should look up to him as an example. I would personally want him as a professor. I would recommend him to other students for sure!
4	In addition to being a very generous and happy person, Anat is a great instructor that does his best to explain concepts in a way that is easy to understand. He made showing up at 7:30am not as bad.
5	Excellent TA that will excel if he becomes a professor. Anant is readily available and so enthusiastic about his job which makes learning amazing. His spirit and teaching is awesome. He makes difficult concepts easy to learn. Thankful for Mr. Deshwal.
6	Best TA i have ever had. Easy to listen to, readily available for questions, and extremely passionate about his work and learning. 10/10
7	Anat Deshwal was a phenomenal lab instructor. He was absolutely incredible throughout the entire semester. He presented the material in a fun and interesting way that enabled me to learn the material very well. He was always incredibly helpful throughout the lab and was always able to explain the difficult material. His presentations were lively and interactive and he related to the students in a professional and personal way. I would definitely recommend taking him to anyone else and i thoroughly enjoyed his lab throughout the semester.
8	Anant was a fantastic lab instructor. I had his Friday lab at 7:30am and he would bring coffee (outside the lab of course) for us to have if we got tired during the lab. He also would use different avenues of teaching to instill that we understood the material - like playing a song with his ukulele or letting us watch a video. I am taking the MCAT in a month and I think that I fully understand a lot of the biological systems on his account. The only thing I found unhelpful was the presentation at the end of the semester. It wasn't really helpful as a review and the diseases were never discussed as important for knowing for the final.
9	Anant is really great! You can tell he works hard with the ultimate goal of being a professor one day. All the best to him! I think many schools would benefit from adding him to a faculty position. I think Anant gets along well with everyone he meets, and is especially creative when teaching students. As a young student myself, I feel that modern academia needs more professors like Anant to be on the students' level and help them learn. He's passionate and shares his hobbies with all his students. His stories make you wish you were a biologist too!
10	Anant is a great instructor and is my favorite lab instructor that I have ever had. He made a 7:30 Friday AM lab awesome! His powerpoints actually helped me a lot to understand material better because I feel that the lectures with Dr. Walker would always confuse me. Anant would always offer to help us with difficult exam material and would always give us feedback on our work. He made the lab fun to do and his real world examples about the content we were learning really helped me to understand and be able to do well on the lecture exams. I wish all of my lab instructors were like Anant. Maybe I wouldn't have hated going to all my other labs as much! I hope Anant continues teaching. He is an awesome teacher and an all around great guy. I would take a class on ANYTHING that Anant was teaching.

1	The way we are being tested for this course I feel like it was a bit extreme. Maybe instead of testing students over 100 things, break them up and do small quizzes. During the summer that would cause students to have better grades since they are only being tested over small amount of knowledge at a time. So maybe 2 or 3 quizzes per week would be just fine!
2	Great TA, at 7:30 he was wide awake every day and was ready to help anyone that needed it.
3	Anatomy lab is very challenging and very hard at times, but Anant made explaining information and areas of the rabbits and made it to where it made sense. He is so passionate about what he does and will make a great professor! The only thing that would make the class a little easier would be if there was a guide to show you how to dissect and find the items

1	such an awesome guy!! wish i could have him for every lab he really just wants us to enjoy learning an not care so much about the grade. He has an outlook on life that makes my day better every time! highly recommend.
2	You were such a great TA and I could tell you really care about your students and made sure we always were following along with you and understanding difficult material. My only advice for you as you teach other classes is to explain the experiments quickly at the beginning and then let the students do them at our own pace because the labs were unnecessarily long when they didn't need to be and this caused students to loose focus and interest. Overall, I had so much fun in this lab and you are an amazing teacher! Have a great holiday.
3	Super nice, really cares about his students!
4	My instructor is so passionate about microbiology, and you can see the joy he gets from his students learning. He makes sure everyone understands the material and does their experiment correctly. He was very encouraging and really made me find a love for microbiology. This lab was my favorite course from the whole semester because my TA made it such an enjoyable learning experience.
5	My favorite TA so far in college! Friendly, makes lab fun, readily available when needed, and gives clear and precise instruction and explanation during labs! He made learning about bacteria enjoyable and a lab I didn't dread going to! Thank you, Anant! I'll miss you!
6	Mr. Deshwal is awesome. I wish he was teaching the lecture and not the other bozo.
7	Makes lab fun and enjoyable, super nice TA and one of the best ones I have ever had for a course
8	As a senior this year I have taken many labs over my undergraduate career and I can easily say Anant was one of, if not the best instructor I have had. He was always willing to help no matter when and where. Anant also excelled in making the lab enjoyable with his hilarious stories of fighting monkeys and covering himself in elephant feces. I would like to truly thank Anant for a great semester, and hope to hear about him in the future as I know he will excel in whatever he ends up doing.
9	Anant was so awesome! By far the best lab TA I have ever had!
10	Anant was an incredible instructor that was truly passionate about what he does. It was a true joy being in his class. Only negative is sometimes he over explains somethings leading to a longer than necessary lab or we run out of time in the lab.

1	Truly amazing. Made learning so much fun.
2	I have never had an instructor that was as motivating and uplifting as you were. You have grown to be a huge inspiration in my life and I think very highly of you as a person. I quote you way too often now! You made this course much more easy to understand and the way you taught lab made a late lab much more bearable. I do not think there is a single thing you can do to improve this course as I found you to be the best instructor I have had at this University to this day. You are such an inspiration and you will make an amazing professor!
3	Had a night lab, he would always keep us very focused and made sure we understood everything we were learning. Loved having him as a TA.
4	Great instructor! Made students feel happy, helped us learn a lot, responded to emails quickly and was helpful when we asked questions. Sometimes things seemed a little unorganized, but not to a point where we didn't know what we were supposed to do. Overall I learned a lot and I would definitely take Anant's lab again.
5	Dear University of Arkansas, THIS IS THE BEST T. A. THAT THIS CAMPUS HAS EVER HAD. I needed to emphasize this. Please sought after more people like Anant. He cares so much for the people in his lab and not just academically, but personally. He wanted to make sure we understood the material taught and to let us know that he was available any time we had questions. Thank you, thank you, thank you Anant for being you! Please do not stop teaching!
6	By far the best out of any other professor/TA that I have had in all four of my years here. You were so caring and beyond willing to help in any subject or any problem we maybe had. Our whole class was so thankful that we got you! Thank you for all of your stories and all of your help throughout the semester. I am sad to leave this class just because I am sad to not have you as a teacher anymore. You are going to make the best professor ever! Good luck!
7	Anant you were an amazing teacher! All of us students could really tell how much you cared about us and our well being. I loved listening to all your stories and it sounds like you have lived one amazing life and I hope to be as well traveled as you. Good luck on school, your unbelievably intelligent and will be so successful!
8	Anant was an extremely helpful TA. He was so kind and patient to explain each objective to the class. We didn't waste time in lab and got everything done quickly and effectively.
9	Anant is the best lab TA I have ever had, any student would be lucky to have him!
10	Anant is one of the sweetest people I have ever met! He deeply cares about each of his students and will help you with anything! He is such a positive person and it's contagious, highly recommend his class!
11	Anant is a great guy. He is funny and loves what he does. He does have a tendency to talk a lot and go on a rant about certain things, although they are welcome, sometime they can be a little much. He has great stories and is willing to help you in any subject that you are struggling with overall one of the best lab instructors I have had.
12	Anant is an amazing TA! He makes learning fun and always puts a smile on our faces. He cares about the student and their well-being. You can really tell that his heart is in his teachings and never fails to do his best. While he keeps the information fun, he also explains all of the information well and if we do not understand something, he goes back and answers all questions we might have. He teaches in a way that is easy to comprehend and makes sure that we know he is readily available outside of class for questions too! I cannot stress this enough, he really truly is a wonderful TA.

Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	33.33% (5 of 15)
1	Very helpful and friendly!
2	THIS TA WAS SO HELPFUL. He took a very complex class and made it a lot easier to understand. He used helpful tricks to remember things and he was really hands on in helping which made me feel more confident. I wish I had been more forward about asking questions and using my TA as a resource in the beginning because he was so helpful. I really enjoyed this class and my TA. Seriously the best and a really smart man. All his stories about life and anatomy kept me engaged. I just wish he would have been more hands on at the beginning when I was scared to ask questions but other than that, the semester went smoothly and this is the best I couldve hoped for.
3	I genuinely loved having you as my lab instructor this semester. The course and material were difficult and the exams have definitely not been easy but overall your personality and happy presence plus the very obvious passion for the subject really made me want to learn.
4	He is extremely funny to converse with which makes it easy to learn about such a difficult and stressful class. He knows so much about anatomy and still works very hard.
5	Anant is the best TA that has taught me so far. He goes above and beyond to help his students learn and understand the material.

Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	60.00% (6 of 10)
1	The lab manual had pictures of cats instead of the rabbit which is what was being used, making it difficult to learn the material outside of lab.
2	Mr. Deshwal is a nice and brilliant instructor. He cares about the success of his students. Although, during my lab, he would spend a lot of time with other groups and not enough time with my group. He would go through every organ or structure with everyone else. When he would come to my group he would go through each briefly and then would leave. I do wish he could have given out some pop quizzes that aren't worth a grade but is a fun way to memorize and learn the anatomy of the human or animal.
3	I love this lab! I learned so much and had such an amazing TA!
4	I have enjoyed taking your lab and would love to have you as a TA again.
5	I enjoyed your stories and your enthusiasm in teaching.
6	Anatomy Lab has too much of a studying expectation along with the lecture. The material does not always correlate either.

Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	62.50% (5 of 8)
1	This lab rocks, super relevant and interesting procedures each week. Anant is awesome, give him his PhD because he knows science and he knows how to motivate people. His is the best TA I have had in college.
2	I really enjoyed lab with you as the TA. So many interesting stories and ways to remember the material!
3	I am very harsh on course evaluations because I feel as though professors sometimes need to know where they are wrong in their teaching methods in order to help with the success of their students. However, I cannot say enough positive things about this lab and Anant. I absolutely LOVED this lab. I have always dreaded going to labs because they are usually boring and not laid out in a way that is easily understandable, but this class was truly what I looked forward to on Wednesdays. Anant is clearly beyond passionate about his teaching, and it made all of us passionate about learning. And truly, most of us agreed, we learned more in this lab about physiology than we did in our lecture. He was always open to helping and offered to be there to help us with any questions we didn't understand in the lecture. 100% the BEST class I have had yet during my college experience! Thank you so much for making this lab enjoyable and helping me find a passion in a class that I did not think I could ever feel passionate about! I wish Anant the absolute best!!!
4	Best lab TA I have ever had. He is very passionate about learning and that makes it so much easier for students to learn from him!
5	Anant's passion for the material was inspiring. He will make a great professor one day.

Faculty:	Anant Deshwal
Question:	Comments:
Response Rate:	63.64% (7 of 11)

1	Just thought the pre lab info could've been more thorough or quiz questions could come more directly from the info in the background information section.
2	I think Anant was a great lab TA. Every day he was excited to be in class and was ready to make us learn.
3	I am a junior in college and this is the best teacher I have had in all 5 semesters I've been here. I felt like Anant would drop absolutely anything he was doing to help me with something if I ever needed it. He explained every single topic so clearly, he always encouraged us every week, and he was always available for help. I have never felt like a teacher cared so much for his students in my life. I hope I get the chance to have Anant as a teacher again.
4	Honestly, Anant was the best TA I've ever had. He was obviously passionate about the material and his students and I really felt like he care about me and my education.
5	Great course, instructor was very passionate about learning and physiology. Was always striving to explain content clearly and came up with creative ways to teach.
6	Did a good job of making the class relatable to everyday life and made material enjoyable to learn.
7	Anant is by far the best TA I have ever had. He made learning the concepts enjoyable and he related them to us in ways that it is easy to still remember concepts from the beginning of the semester. Fantastic!
